To,
All Joint Directors of Agriculture.
Karnataka

Sub: Selling of unregistered Bio products adulterated with pesticides.

With reference to the above subject it has been noticed that in our state unregistered bio-products adulterated with Registered Pesticides have been sold by violating Insecticide Act 1968 and Insecticide Policy 1977. Samples of such products have been collected and analyzed and found contents of various Insecticides.

In the Annexure-1 We have furnished names of those companies who are selling the products in the name of bio-products adulterated with Insecticides which is against Insecticide Act 1968 and Insecticide Policy 1977.

These companies are doing injustice to the public and farmers and we need to take stringent action against them.

In this connection you are advised to take following actions.

1. Initiate action against those companies mentioned in the annexure along with the products as per the insecticide Act and Insecticide Policy.
2. Instruct Insecticide dealers to stop selling the products of the companies mentioned in the annexure.
3. Creating awareness among farmers and general public about the fraud.
4. Give mass publicity in print and mass media on the above subject.
